ABOUT ME

I am a Software Development student trained at Uncommon.org, with a passion for creating efficient, user-focused digital solutions. Skilled in HTML, CSS, JavaScript, and React.js, with experience developing web applications through academic and personal projects. Possesses a solid understanding of UI/UX design principles and modern web development practices. A fast learner who thrives on continuous improvement, problem-solving, and transforming ideas into practical applications. Known for strong attention to detail, adaptability, and a commitment to personal and professional growth. Seeking opportunities to apply technical skills, gain industry experience, and contribute to innovative technology projects while continuing to grow as a software developer.
